Members absent: Geraldine Barcheski, Tom Burkhart, Pat Walsh, Jeanine Seber, Karin Roessle, Michele Witte,

Also present: None

This meeting was called to order at 3:00pm

Review of the 2022 programs currently scheduled or in session include: DARE, Not Even Once, and Wellspring. Kathy Kudelka provided a brief description of all programs.

Kim Seber announced the first Narcan training was completed in February with good attendance.

Kathy Kudelka reached out the DEA – Tim McMahon – inquiring about the program Hidden in Plain Sight. Program description was discussed by the group. There was further discussion about the venue for this event once scheduled and the YMCA is a possibility we may consider in the future.

Community Service initiatives were reviewed. Kim Seber thanked everyone who continues to participate but has asked that everyone please take a turn to help support our initiatives within the community

Mickey Gross stated that he would like ‘Rudy’ to speak to our South Amboy youth. *‘The movie, Rudy, described a kid who grew up in a steel mill town where most people ended up working, but wanted to play football at Notre Dame instead. There were only a couple of problems. His grades were a little low, his athletic skills were poor, and he was only half the size of the other players. But he had the drive and the spirit of 5 people and has set his sights upon joining the team.’* Mickey further stated that Rudy had spoken in another school district and thought the presentation was extremely well presented and thought this would be a great program to augment all our other initiatives.

GOTR went well and, per Joe Cohen, have the ability to use the YMCA when necessary. Joe further stated that there is space and a willingness to partner in any program moving forward.

Kim Seber will send out Narcan information including letter to Governor and Rutgers training.

With no public present to speak, the meeting was adjourned.

Next meeting is scheduled for May 19, 2022 at 3:00pm

.

Respectfully submitted,

Kathy Kudelka
